Canada

Trade-marks Journal
Vol. 65 No. 3299

General Information

The *Trade-marks Journal* is published every week in compliance with Rule 15 of the *Trade-marks Regulations*. The Registrar of Trade-marks cannot guarantee the accuracy of this publication, nor assume any responsibility for errors or omissions or the consequence of these. All mail relating to trademarks should be addressed to the Registrar of Trade-marks, 50 Victoria Street, Gatineau, Quebec, Canada, K1A 0C9.

Electronic *Trade-marks Journal*

The *Trade-marks Journal* is available in electronic form on the CIPO web site (http://cipo.gc.ca). The *Journal* is available in PDF format and can be downloaded free of charge, viewed and printed with Adobe Acrobat Reader. The electronic form of the *Trade-marks Journal* is the official version.

The *Journal* is also available in a printable HTML format as an alternate official version, and contains a search function to narrow and customize the *Journal* content to user defined areas of interest.

Official Languages

The *Journal* is available in English and in French. The application details are displayed based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the Journal are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the Journal have been translated. Any registration resulting from the application will be restricted to these goods or services described therein.

Filing Dates

The filing date of each trademark application advertised in the *Trade-marks Journal*, including those to extend the statement of goods or services of an existing registration, is shown next to the application number in the sequence of Year, Month and Day.

Nice Classification

The *Journal* includes reference to the Nice classification when the goods or services of an application have been grouped and classed by the applicant in accordance with the current version and edition of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Trade-marks Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Trade-marks Journal* may file a statement of opposition with the Registrar of Trade-marks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

Satellite receivers; Optical disc drives; Optical disc recorders; Optical disc players; Optical disc changers; Optical disc cartridges; Optical disc players/recorders/drives and parts thereof; Lens cleaning discs for optical disc players; Facsimile transceivers; Telephones; Cellular phones; Smart phones; Accessories for cellular phones, namely, battery packs, cases, chargers, holders, power supply adapters, headsets, earphones and microphones; Hands free kits for mobile-phones; IP telephones; Cordless telephones; Conference speakerphones; Wireless speakerphones; Telephone answering machines; Private automatic branch switching systems; Global positioning system receivers; Radio telephones; Multi-channel access radio systems; Electric traffic information apparatus, namely, electric display boards for displaying traffic information; Electronic control boxes and microphones for use in the video teleconferencing system; Apparatus for local area network, namely, panels equipped with wiring connecting terminals for connecting computers and communication devices to computer network; Electronic encoders and decoders for encoding and decoding data contained on audio visual apparatus, namely digital video players/recorders, digital audio players/recorders; Navigation apparatus for vehicles in the form of on-board computers; Hand held computers for use in the travel navigation; Protection films for use on screens of navigation apparatus for vehicles in the form of on-board computers; Remote controllers for navigation apparatus for vehicles in the form of on-board computers; Stands for navigation apparatus for vehicles in the form of on-board computers; Cables for navigation apparatus for vehicles in the form of on-board computers; Electronic toll collecting units for cars; Visual/information distribution systems comprising management servers, operating terminals, controllers; Digital broadcasting systems which consists of video cameras for digital broadcast, switchers, outside broadcast vans; Multimedia learning systems, namely, personal computers, recorders, and computer operating software; Emergency call remote controllers; ON/OFF remote controllers; Remote controllers for audio/visual machines; Remote controllers for air conditioners; Remote lighting control systems; Receivers for wireless shutter open/close remote controllers (electrical automatic door open/close systems); Transmitters for wireless shutter open/close remote controllers (electrical automatic door/close systems); Remote controller transmitters/receivers; Power supply adapters for use with portable electronic devices; Road and traffic information receivers; Electronic receivers for receiving alert from the governmental crisis management systems; Apparatus for use in search of lost pets with radio transmitters/receivers, namely, electronic transmitters and receivers; Remote controls for lighting appliances; Liquid level controllers [electric or electronic]; Circuit controllers; Power controllers; Frequency controllers; Remote control panels for lighting appliances; Control panels for lifts; Lighting control panels; Control panels for use in the evacuation guidance systems; Power sequencers, namely, programmable logic controllers; Computers; Tablet computers; Mobile computers; Hard disc drives; USB cables; MPU (micro processor unit) cooling fans; Computer gateway hardware and software for computer broadband network; Image scanners; Printers for computers; Toner cartridges [empty] for computer printers; Toner cartridges [empty]; Photo printers; Video printers; Plain paper copiers; Automatic document feeders for office use; Multi-function printers, namely, those which can be used as a printer, a scanner and a facsimile machine in one unit having network connectability; Multi-function printers; Finishers for multi-function printers; Paper feeding stands for multi-function printers; Paper transporting units for multi-function printers; Hard disk drive units for multi-function printers; Memory boards for multi-function printers; Printed page counting software for multi-function printers; Digitized document distribution (to PC /mobiles) software for multi-function printers; Waste containers for toners for multi-function printers; Verification (sent/received) stamps for multi-function printers; Control panels for multi-function printers; G3 communication units for multi-function printers; Internet facsimile units for multi-function printers; Paper cassette units for multi-function printers; Catch trays for multi-function printers; RFID (Radio Frequency Identification) reader/writer for multi-function printers; LAN boards for multi-function printers; Extension cassette for multi-function printers; Handset units for multi-function printers; Electronic blackboards; Electronic whiteboards; PC cards, namely, memory cards for car navigation systems; Computer keyboards; Floppy disk drives; Card readers; Card readers/writers; Bar code readers; Bar code scanners; Portable data terminals; Electronic cash register; Terminal for POS (point of sales) systems; Electronic calculators; Network cameras; Routers; Monitors [computer hardware]; Wireless LAN adapter; Ethernet adapters; SD memory data copying machines; Network disk recorders; Memory card camera recorders; Memory card recorders; Memory card drives; Video encoder cards; Port replicators; Optical disc cartridges; Electronic publication in the nature of maps [downloadable]; Downloadable image files and moving pictures for mobile phones and in-car digital audio-video devices; Downloadable electronic data files for computer programs featuring information on maps, travels, personal interests and hobbies, restaurants, cafes and shopping; pre-recorded DVDs featuring information on maps, travels, personal interests and hobbies, restaurants, cafes and shopping; Computer software for use in control of air conditioners; computer software for use in control of in-car multimedia systems; computer software for use in control of automated vehicle driving systems; Computer programs for updating electronic maps in navigation systems; Computer programs and downloadable software for purchasing, managing and updating electronic data in navigation systems; Software for programmable controllers for use in production lines; Computer software for processing and editing image and graphic data; OCR (optical character recognition) software; Computer software for use in the development of optical character recognition systems; Computer software for operating electric medical and beauty care apparatus; Computer systems for accepting, guiding and paging outpatients in hospital facilities; Electronic devices for assisting communication of persons with disabilities, namely, text-to-speech reading devices; Apparatus for remote monitoring of patients, namely, remote video monitoring system consisting primarily of a camera and video monitor for recording and transmitting images to a remote location; Computers for use in hospitals and clinics for management of medical affairs; Electronic health record systems, namely, computer software and hardware for managing health records; Computer systems for management and review of a patient medicinal records; Computer hardware and software for use in the cell processing work station (CPWS); Intelligent security and surveillance systems; Factory surveillance systems; Computer hardware and software for use in long storage and backup of surveillance images; Computer hardware and software for use in enterprise contents management system; Computer hardware and software for use in web contents management system; Computer hardware and software for use in documents management system; Computer hardware and software for managing office administration work; Computer hardware and software for use in security systems for management of identification data; Computer hardware and software for enabling users to accelerate access to computer database; Full-text search engine software; Computer hardware and software for use in the remote access controlling systems for computer network; Disaster prevention wireless communication systems, namely, wireless communication devices for voice, data or image transmission; Computer hardware and software for distributing electronic newspaper publications via an online network; Computer hardware and software for data broadcasting and distributing of electric program guides; Digital audio broadcast system for in-building; OFDM(orthogonal frequency division multiplexing) modulators for In-building; Computer hardware and software for use in electronic toll collection systems; Computer hardware and software for use in traffic control systems; Computer hardware and software for use in dam management systems; Multimedia tablet computers; Electronic medical charts; Computer hardware and software for use in the management of health insurance pharmacy; Computer network servers; Blank external data storage media, namely, hard discs, DVDs and optical discs; Blank video cassette tapes; Head cleaning tapes for tape drives of audio and video tape recorders and players; Blank D-VHS video cassette tapes; Blank digital video cassette tapes; Blank audio cassette tapes; Blank floppy discs; Blank optical discs; Blank integrated circuit cards; Blank SD (secure digital) memory cards; Thermoluminescence dosimetry devices, namely, dosimeters; Dosimeters equipped with alarms; Counters, namely, LED counters for industrial use; Ammeters; Power consumption meters; Thermometer, not for medical purposes; Voltmeters; Distortion meters; Electric weighing scales that also measure body fat; Weighing machines/scales; Pedometers; Calorie consumption monitors for use during sporting activities; Exercise intensity and pitch monitors for use during sporting activities; Hour meters; Electricity testing and measuring instruments (power measuring equipment); Integrating wattmeters; Multi-circuit type electric power monitors; Gas meters; Ultrasonic gas meters; Water meters; Wattmeters; Electronic instruments for measuring oral hygiene parameters, namely, the numbers of bacteria; Distance measurers; Sensors (electronic parts), namely, Thermal sensors, temperature sensors, optical sensors, motion sensors, pressure sensors, liquid level sensors, light sensors, image sensors, current sensors and moisture sensors; Automatic sensing devices comprising lights, namely, fire and smoke detectors and illuminance sensors; Light emitting diodes; Light emitting diodes chips; Light emitting diode modules; Light-emitting modules; LSI (large scale integration circuits); Microcomputers; Integrated circuits for use in processing of halftone images; Semi-conductors; Semiconductor memory cards; Integrated circuits; Semiconductor lasers; Electrical power connectors; Electric/electronic display instruments, namely, liquid crystal displays and digital signage monitors; CCD image sensors, namely, image sensors for digital cameras, camcorders and cameras for automobiles; MOS (metal-oxide semiconductor) image sensors; Film capacitors; Membrane unit for oxygen enrichment; Electric tuner units; High frequency units; RF (radio frequency) front end system units; RF (radio frequency) modulators; Coin validating units; Coin selector units; Bill validating units; Bill selector units; Electric capacitors for audio speakers; Power modules, namely, voltage monitor modules;

Magnet rolls; DC/DC converters; Inductors [electricity]; Electric capacitors; Electric power capacitors; transistors; Filter of electric signals being electrical/electronic components, namely, filters for radio interference suppression; Noise filter; Light modulators; Optical transmission components; Photo detectors; Optical connectors; Optical semiconductor elements; Optical lenses; Aspherical lenses; Electric transformers; Thermistors; Varistors (surge absorbers); Ceramic oscillators; SAW (surface acoustic wave) oscillators; Acousto-optic devices, namely, optical modulators, optical deflectors, tunable optical filters and optical signal processors; Electric resistors; Potentiometers; Trimmer potentiometers; Thermal cutoffs; Electric apparatus consisting of resistor array for interface circuits (resistance networks); Electric apparatus consisting of capacitor array interface circuits (capacitance networks); Electric apparatus consisting of resistor array and capacitor array for interface circuits (resistance/capacitance networks); Encoders; Magnetic resistive (magnetic resistant) elements, namely, magneto-resistive motion sensors; Chip coils (electronic parts); Choke coils; Current sensors in the form of coils; Touch panels; Remote controls for audio-visual apparatus; remote controls for vehicles; Duplexers; SAW (surface acoustic wave) devices, namely, filters for radio interference suppression; Baluns (balanced to unbalanced transformer); Electric power dividers; Wireless communication modules/units; RF (radio frequency) modules; PLL (phase locked loop) synthesizer modules; Bi-directional low-power wireless modules; Bead cores for EMI filtering (electronic components); Bead arrays for EMI filtering (electronic components); Micro chip fuses; Relays, electric; Solenoids; Inverter power supply; Power supply units; Inverters; Inverters for power units; Electric timers; High density wiring boards; Printed wiring boards; Circuit protectors; Hinges for flip-type cellular phones; Electrical ionizing brushes; Battery operated lint removers; Ion generators; Ionization apparatus, not for the treatment of air, namely, static electricity eliminators; Magnetron oscillators; Magnetron sputterers; Static electricity eliminators; Electric cooling fans for electronic machines and apparatus; Electric cooling fans for telecommunication machines and apparatus; Laser level indicators; Electric laser markers; Devices for alert of animal approaching using ultrasonic, namely, security alarms for the detection of animals; Luminous road signs; mechanical road signs; Direct current power supply units; Uninterruptible electrical power supplies; Computerized time clocks for use in factories; PLC (power line communication) adapters; Portable digital display devices for use in the magnified view of images and videos; Temperature indicators for refrigerators; Skin moisture measurers; Microscopes; Motorcycle helmets; Bicycle helmets; Self-propelled electronic devices for guiding and directing people to different places and software therefor, sold as a unit, namely, robots for personal or hobby use; Self-propelled electronic devices for assisting users to make purchases in facilities, and software therefor, sold as a unit, namely, robots for personal or hobby use; Self-propelled electronic devices for assisting delivering and retrieving of items, namely, robots for personal or hobby use; Self-propelled electronic devices for assisting remote communication between users, namely, robots for personal or hobby use; Switch units integrated with nurse call button, outlets, lights, to be installed at the hospital room bedheads; 3-D (three-dimensional) profilometers; CO2 laser oscillators for soldering, jointing and processing; Timers for use in factories; Temperature regulators; Interface terminals; Computer hardware for processing digital images; Appearance testers, namely, optical inspection apparatus for semiconductors; CO2 incubators for laboratory use; Cooled incubators for laboratory use; Plant growth chambers for laboratory use; Clean benches for laboratory use; Biological safety cabinets for laboratory use for preventing biohazard; Rotary converters; Phase modifiers; Electric wires and cables; Thermometers, not for medical purposes; Encoders; Automobiles and their parts ; Bicycles and their parts ; Bicycle tires and tubes; Electric power assisted bicycles; motorized carts for refrigerating, heating and dispensing meals in hospitals and other institutional environments; Trolleys with meal trays; Wheelchairs; Automated trolleys used for transportations in plant; Sporting bicycles; Motors for land vehicles; Motorcycles, bicycles and their parts and fittings;

Wheelbarrows; Motors for electric bicycles; Units for electric bicycles, comprising motors, rechargeable batteries and control devices thereof; Motorcycle covers; Carry bags for bicycles; Windscreen for automobiles, motorcycles and bicycles; Cycle stands; Handlebar grips for motorcycles and bicycles; Cycle saddles; Baskets adapted for cycles; Pedals for bicycles; Tail lamps for automobiles, two-wheeled motorcycles and bicycles; Cycle frames; Cycle carriers for automobiles; Drive-chain guards for motorcycles and bicycles; Seat covers for automobiles, motorcycles and bicycles; Shields attachable to handlebars of cycles, in particular, to protect hands from cold, rain, sun tan, etc. during cycle rides; Child seats for bicycles; Mudguards for motorcycles and bicycles; Dress guard for cycles; Brake cables for cycles; Motors for moped; Electric motorcycles; Bicycle covers; Bicycle stands; Bicycle frames

Goods

(1) (1) Oil well pumps, gas well pumps, water well pumps. oil and gas well equipment comprised of steel, brass, nickel alloy, stainless steel or cast iron, used in oil or gas well holes or at the surface of oil or gas wells to pump or assist in the pumping of fluids from the subsurface to the surface, namely, subsurface oil and gas well pumps, sucker rod oil and gas well pumps and couplings for sucker rods, pump barrels, namely, the cylinders of the downhole pump and pump plungers, namely, devices that typically travel up and down in the cylinders, both which are piston mechanisms of sucker rod oil and gas well pumps used to seal and produce a pressure differential for lifting reservoir fluids into the subsurface pump and then to the surface, sucker rod pump balls and sucker rod pump seats used for sealing pressure, cages, namely, hollow structures containing sucker rod pump balls and which absorb the impact of the ball on the well pumping downstroke and guide the ball back to the center of the seat on the upstroke, oil and gas well pump anchors which optionally anchor the sucker rod pump in the tubing, polished rods, namely, joints in the string of sucker rods used in a rod pump artificiallift system for enabling hydraulic seals to be made

around the reciprocating rod string and through the injectable packing stuffing box, polished rod clamps for connecting polished rods to the reciprocating oil or gas well machinery at the surface, polished rod liners for sealing pressure around the polished rods and through the stuffing box, polished rod alignment tools, namely, sliding horizontal and vertical guides for aligning the reciprocating movement of the polished rod with stuffing box seals while maintaining a pressure seal, spiral sucker rod guides for centering the rod string in tubing, valve rods for connecting the rod string to the sucker rod oil and gas well pumps, pull tubes for connecting the rod string to the sucker rod oil and gas well pumps, sinker bars, namely, weight bars that connect the rod string and sucker rod pump for overcoming the effects of pressure and friction at the surface seal and sucker rod pump when additional weight is needed, seating cups for sealing static fluid pressure between sucker rod pump and oil and gas reservoir, seating nipples, namely, short sections of heavy wall tubular used for providing a sealing surface for seating cups and positive stop for sucker rod pump, seat valves for use as shutoff devices in oil and gas well pipelines, pollution control stuffing boxes, namely, seal assemblies for providing monitor ports between two sets of packing and for sealing pressure around reciprocating polished rods and polished rod liners so as to contain any well fluid leakage from spilling onto the surface, injectable packing stuffing boxes, namely, seal assemblies for sealing pressure around reciprocating polished rods and polished rod liners, so as to contain any well fluid leakage from spilling onto the surface, rotationally operated on and off tools, namely, key and socket mechanisms actuated by rotation, for connecting and disconnecting sucker rods to and from well pumps, which are remotely actuated from the surface when the oil and gas well pumps are pulled for servicing. (2)Automatic control valves for use in fluid flow control, namely, pressure regulator valves, level control valves, and flow control valves, barrel pumps, test cocks, tempering valves, shock arrestors, altitude protection valves, fire protection valves, high pressure safety valves, solenoid valves, temperature controller containing a sensing element which can be used with compressed air or liquid to operate valves or dampers, automatic valves used to automatically fill and top-off the water in individual central-heating system radiator, electrically operated temperature alarm system consisting of a thermostat and an electric alarm for monitoring high or low temperature, thermostatic water mixer controls, water temperature controls for tubs and shower, automatic valves used to automatically vent unwanted air from individual central-heating system radiator, computer software for sizing and selecting valves for use in the field of process control and water tempering, computer software for selecting valves for use in the field of construction, automatic plumbing, heating and solar control devices, namely, valve actuators, automatic control valves, water/steam pressure regulators, pressure reducers, shock and water hammer arresters, dielectric unions, current sensing, automatic shut off valves, vacuum breakers, flow switches, indicators and detectors. (3)Manually operated plumbing valves for use in fluid control, namely, backflow prevention valves, double check valve assemblies, double check detector assemblies, reduced pressure assemblies and reduced pressure detector assemblies, relief valves, radiator traps, vacuum breakers, shutoff valves, ball valves, purge and balance valves, irrigation valves, gate valves, check valves, low pressure valves, globe valves, shower valves, washing machine valves, supply valves, and float valves, steam valves.
